Interactive sessions (held in person or by email) will encourage students to examine their experiences and get feedback from others. Individual conferences (held in person, by email, or by phone) with the instructor will help guide the students toward improved skills in a preschool early childhood setting.

VII. METHODS OF EVALUATION

Students may be assessed by attendance at the practicum site, observation from the on-site supervisor, reflection journals and their own self-evaluation using an evaluation instrument provided by the instructor. Students will be assessed on the quality and developmentally appropriateness of the plans and materials utilized to implement experiences for preschool and school-age children. Students will also be assessed based upon their communication with staff, children and parents in the early childhood setting.

Through practicum experiences, students are being trained as potential employees in the early childhood profession. Employability is based not only on working skills but also on attendance, punctuality, dependability, and attitude. The student's scheduled time in practicum is very important. It is of extreme importance that students be present and on time. The children and staff are depending on students as an important part of the total program team. Employment skills will be part of the overall assessment for this class.
